- Moyer Packing Co.; Souderton, Pennsylvania; 215-723-5555

STATE OF NEW JERSEY RECYCLING RESOURCES

The Bureau of Recycling and Planning is part of the [Department of Environmental Protection's Solid and Hazardous Waste Program](#). It is comprised of three units – the Recycling and Market Development Unit; the Grants, Loans, and Data Unit; and the Planning Unit. The Recycling and Market Development Unit addresses a wide variety of issues pertaining to recycling, waste reduction and recycled product procurement. Among other activities, the unit helps create and expand end markets for recyclable materials, promotes source reduction (also referred to as waste reduction) and product stewardship, coordinates the activities of the New Jersey WasteWise Business Network, develops educational and promotional initiatives on behalf of recycling and supports the purchase of recycled products.

The Grants, Loan, and Data Unit administers the recycling tonnage grant and reporting program, the local tire management fund and the Solid Waste Services Tax grant program. In addition, the unit manages the solid waste facility disposal tonnage data system. Using this information, the unit generates useful statistics pertaining to recycling and solid waste management in New Jersey.

The Planning Unit oversees the county and state solid waste management planning processes. County solid waste and recycling plans and amendments are reviewed by the Planning unit, which also circulates these plans to a number of state level review agencies. The unit also coordinates the activities of the State Solid Waste Advisory Council and oversees the development and updating of the Statewide Solid Waste Management Plan.

New Jersey's Recycling Goal & Rate

Goal - 50% municipal solid waste; Rate - 33.8% municipal solid waste

Other New Jersey Resources

- [Association of New Jersey Recyclers](#) (ANJR) – ANJR is a non-profit organization, founded in 1984, committed to promoting environmental sustainability through sound resource management and recycling strategies. ANJR supports this concept by sponsoring workshops, educational events, professional development programs, and through our website, publications and newsletter. ANJR membership represents the public and private sector, local and county government officials, the recycling industry and the business community. Specific publications available on the ANJR website include: *The Recycling Manual for Schools*, *Recycling Coordinators Primer for Municipalities and Businesses*, *Economics Manual*, *Buy Recycled Products Guide*, and the *Recycling Markets Directory*.
- WasteWise is a free, voluntary program established by the United States Environmental Protection Agency to promote waste reduction (also known as source reduction), recycling and recycled product procurement. The New Jersey WasteWise Business Network is an organization devoted to spreading the WasteWise message to businesses, local governments and other organizations in New Jersey. In cooperation with the New Jersey Department of Environmental Protection, the Network focuses on the business sector; however, membership is open to all organizations.
- [Sussex County Chamber of Commerce](#)
- [New Jersey Clean Communities Council](#)
- [Freecycle](#) – a free network for towns to post unwanted items online for reuse.
